

(1) Not applicable. MCI does not provide an international communications service solely through the resale of the international switched or private line services of another US facilities-based carrier.

(2)(i) MCI's only ten percent or greater shareholder is BT, which currently holds approximately 20% of MCI's stock and will hold 100% of MCI's stock upon closing of the proposed merger. BT's executive offices are located at BT Centre, 81 Newgate Street, London EC1A 7AJ, England. The principal business of BT is the provision of telecommunications services in the UK and between the UK and other countries, including the US. MCI has no interlocking directorates with any other US common carriers.

(2)(ii) MCI certifies that its foreign-carrier affiliates own or control telecommunications facilities as follows:

BT and its various UK-based subsidiaries and affiliates (UK) -- cable and radio-based facilities used to provide local, national, and international voice, video, and data services.

GibTel (Gibraltar) -- international cable facilities used for voice, video, and data services; GSM mobile.

BT France (France), BT Worldwide (Netherlands), SPI (Russia) -- satellite earth station facilities used to provide data and corporate voice communications.

Avantel (Mexico) -- fiber optic facilities between major cities, used to provide private line services.

Clear (New Zealand) -- cable and radio facilities for the provision of national and international voice, video, and data services; some local service to business users.

(2)(iii) MCI hereby certifies that it has not agreed to accept special concessions directly or indirectly from any foreign carrier or administration with respect to traffic or revenue flows between the US and any foreign country which MCI may serve under the authority granted under this part and will not enter into such agreements in the future.

(d) Not applicable. MCI is notifying the Commission of a planned investment within the meaning of § 63.11(b).

(e) As may be required pursuant to § 63.11(e)(2), MCI hereby submits information specified under § 63.18(h)(6), (h)(7) and (h)(8).

(i) As required by Section 63.18(h)(6), MCI provides the following information to demonstrate that, for each country listed in paragraph (c) above for which MCI has authority to provide US facilities-based international service, either: (1) the named foreign country provides effective competitive opportunities to US carriers to compete in that country's international facilities-based market, or (2) its foreign-affiliated carrier does not have the ability to discriminate against unaffiliated US international carriers through control of bottleneck services or facilities in the destination country.

Australia: There are two carriers, Telstra and Optus, that are authorized to provide terrestrial telecommunications infrastructure in Australia. Telstra is the primary provider of local access facilities. Pursuant to an international service providers class license, BT Australasia provides a broad range of local, inter-city, and international telecommunications services, including resold leased capacity and switched services, using telecommunications infrastructure obtained from Telstra and Optus.

Belgium: BT Worldwide leases circuits from Belgacom to provide private voice services to corporate customers and closed user groups as well as public data services. Belgacom, currently a government-owned entity, holds a monopoly on the provision of public voice services and terrestrial infrastructure.

France: BT France provides public data and corporate voice services over lines and facilities leased pursuant to tariff from France Telecom. As the Commission has recognized, France Telecom is the de jure monopoly service provider in France of local, long distance, and international public switched services. 1/

Germany: VIAG InterKom is permitted to provide all telecommunications services, both domestic and international, in Germany except public voice telephony. VIAG InterKom provides all its services using leased lines obtained from Deutsche Telekom. The Commission has recognized that Deutsche Telekom, as the de jure monopoly provider of public switched services and of terrestrial infrastructure for public telecommunications services, controls bottleneck facilities and has market power in Germany. 2/

2/ Id.

Hong Kong: BT Hong Kong provides international data communications services over leased lines under a public non-exclusive telecommunications services license. Hong Kong Telecom International has a de jure monopoly on the provision of infrastructure for international services in Hong Kong. There is limited competition in the market for access facilities.

Ireland: BT Worldwide provides public data and corporate voice services, both domestic and international, in Ireland. To provide its services, BT Worldwide leases lines and facilities from Telecom Eireann. Telecom Eireann is the monopoly provider of public voice services and terrestrial infrastructure in Ireland.

Italy: Albacom provides public data and corporate voice services, both domestic and international, over lines and facilities leased from Telecom Italia. Telecom Italia has a legal monopoly on the provision of public telecommunications terrestrial infrastructure in Italy.

Mexico: Avantel offers domestic and international long-distance private line telecommunications services via its own fiber optic system in competition with Telefonos de Mexico ("TelMex"), the dominant telecommunications provider.

New Zealand: Clear provides national and international telecommunications services via its own infrastructure in competition with Telecom Corp. of New Zealand ("TCNZ"), the national telephone company. Clear owns and operates competitive local exchange facilities in limited areas for service to business users. In most areas and with most customers, Clear leases underlying network facilities from TCNZ for local access.

Russia: SPI carries international voice and data traffic via satellite from an overlay network and a mobile service provider. There is a traffic agreement between SPI and BT for termination of SPI's traffic in, or transit via, the UK. SPI does not own or control any bottleneck facilities and it does not have the potential to discriminate against other US carriers through preferential operating agreements, routing of traffic, exclusive transiting agreements or preferential domestic access or interconnection.

Spain: BTT offers domestic and international packet network service in competition with Telefonica de Espana, the dominant service provider. BTT leases underlying network facilities from Telefonica to provide its services.

Switzerland: BT Worldwide provides public data services as well as voice services to closed user groups over circuits leased from Swiss Telecom PTT. By law, Swiss Telecom PTT has a monopoly on all public voice telephony in Switzerland.

The Netherlands: BT Worldwide provides public data and corporate voice services using facilities leased from KPN. By law, KPN has a monopoly on public voice telephony in the Netherlands.

United Kingdom: A demonstration that the UK provides effective competitive opportunities to US carriers is contained in Volume One, Section IV of this filing.

Gibraltar: GibTel is the provider of international telecommunications services in Gibraltar.

MCI requests classification as a nondominant carrier for the provision of services to Gibraltar. The Commission has stated that forbearance from dominant carrier regulation is appropriate if: "(1) enforcement of such regulation is not necessary to ensure that rates are just and reasonable or not unjustly or unreasonably discriminatory; (2) enforcement of such regulation is not necessary for the protection of consumers; and (3) forbearance from applying such provision is consistent with the public interest." 3/

Citing these factors, the Commission ruled that AT&T would not be prohibited from providing services or classified as a dominant carrier on routes in which: (1) it has affiliates which may have the ability to discriminate against unaffiliated US international carriers through control of bottleneck facilities or services, but (2) where the actual amount of US billed revenues to the country is de minimis compared to the overall number of total US billed revenues. 4/ Total US billed minutes to Gibraltar is de minimis, amounting to .00021 percent of total US outgoing minutes. 5/ In addition, the rule against special

Oct. 22, 1996) (Order) (forbearing from application of dominant carrier regulation on routes that account for .00045 percent of Hawaii billed revenue).

concessions will prevent discrimination against unaffiliated US carriers. Therefore, MCI should be treated like AT&T was in similar circumstances: permitted to continue its services and be classified as nondominant on this route.

(ii) As required by § 63.18(h)(7), MCI provides the information in (e)(i) above to demonstrate that, for each country listed in (c) above for which MCI has authority to resell the international switched or non-interconnected private line services of another US carrier, either: (1) the named foreign country provides effective competitive opportunities to US carriers to resell international switched or non-interconnected private line services, respectively, or (2) its affiliated foreign carrier does not have the ability to discriminate against unaffiliated US international carriers through control of bottleneck services or facilities in the destination country.

(iii) Pursuant to Section 63.18(h)(8), MCI desires to be regulated as non-dominant for the provision of international communications service to, and demonstrates in (e)(i), above, that its affiliated foreign carrier does not have the ability to discriminate against unaffiliated US international carriers through control of bottleneck services or facilities in, the following countries:  
Australia, Belgium, France, Germany, Hong Kong, Ireland, Italy, Mexico, New Zealand, Russia, Spain, Switzerland, and The Netherlands.

MCI notes that the FCC has regulated BTNA as a non-dominant carrier on each of the routes listed in (e)(iii). The Commission should note that BT North America Inc. ("BTNA") has separately requested a ruling that BT does not have the ability to discriminate in the UK against unaffiliated US carriers through control of bottleneck services or facilities. See BT North America Inc. Motion to be Reclassified as a Non-Dominant Carrier for US-UK Service, FCC File No. ISP-96-007-ND (filed Aug. 2, 1996).

With respect to MCI service on the Gibraltar route, for the reasons set forth above in paragraph (e)(i), MCI requests that the Commission forbear from applying dominant carrier regulation.

## II. CONCLUSION

Accordingly, MCI respectfully requests that the Commission find that the proposed investment does not raise a substantial and material question of fact

as to whether the investment serves the public interest, convenience and necessity,  
and grant the relief requested herein.

Respectfully submitted,

Willful false statements made on this application are punishable by fine and imprisonment (U.S. Code, Title 18, Section 1001) and/or revocation of any station license or construction permit (U.S. Code, Title 47, Section 312(a)(1)) and/or forfeiture (U.S. Code, Title 47, Section 503).

## INSTRUCTIONS FOR COMPLETING FCC 704 FORM

FCC 704 form is to be used when applying for consent to transfer control of corporation holding common carrier (or noncommon carrier) radio station construction permit or license under 47 CFR 21, 23 or 25.

B. Submit an original and one copy to the **FEDERAL COMMUNICATIONS COMMISSION, Washington, D.C. 20554** in ample time to be acted upon by the Commission prior to contemplated date of transfer of control. Submit two extra copies for each authorization listed in Item 2.

C. You may be required to submit a fee with your application. Please refer to either 47 CFR 1.1105 or the **Common Carrier Services Filing Guide** for appropriate fee. **DO NOT SEND CASH.** Payment may be made by check, bank draft, or single money order payable to: **FEDERAL COMMUNICATIONS COMMISSION.**

Enter the correct Fee Type Code for the service you are applying for in Column 1 of Item 1(b). Enter in Column (2) the Fee Multiple. Certain applications may request action with respect to more than one station, license, frequency, or party and can be submitted together with one check if they meet specific conditions. Column (2) is used if a multiple, i.e., two or more is being applied for. Enter in Column (3) the result obtained from multiplying the value the Fee Type Code by the number entered in Column (2), if any. Complete line 2 of Item 1(b), Columns (1), (2) and (3), if you are requesting concurrent actions which results in a requirement to list more than one Fee Type Code. Add all amounts shown in column 3, lines 1 and 2. This amount should equal your enclosed remittance.

D. FCC 704 form consists of three parts, which are to be completed as follows: **Part I - to be completed by Permittee or Licensee; Part II - to be completed by Transferor; Part III - to be completed by Transferee.**

E. Before this application is prepared applicant should refer to 47 CFR 1, 21, 23, or 25 which are the Commission's rules governing the execution and filing of this application. Items 16 and 29 apply to 47 CFR 21 applicants only.

F. Approval of this application is not to be construed as a modification of outstanding authorization.

G. Number each document or statement required to be filed as Exhibit consecutively. Enter the numbers in the space provided in the items of the form. When an exhibit is not required, enter "X" in the blank space.

Item 2. All applicants are to complete Item 2, columns (b) and (c). Services which may be listed in column (c) for Part 25 include: Transmit Earth Stations; Satellite Systems (column (d) does not apply); Small Transmit/Receive

Earth Station; Receive Only Earth Stations; and Space Stations (column (d) does not apply). Part 21 services include: Point-to-Point Microwave Radio; Multipoint Distribution; Local Television Transmission; Digital Electronic Message; and Fixed Subsidiary Communications Authorization. The service for Part 23 is International Fixed Public Radio.

Column (d) is to be completed **only** by applicants requesting transfer of control for authorizations issued in the domestic satellite services (under 47 CFR 25) for each authorization listed.

I. Notice: The solicitation of personal information requested in this form is authorized by the Communications Act of 1934, as amended. The Commission will use the information provided in this form to determine whether grant of this application is in the public interest. In researching that determination, or for law enforcement purposes, it may become necessary to refer personal information contained in this form to another government agency. In addition, all information provided in this form will be available for public inspection. If information requested on the form is not provided, processing of the application may be delayed or the application may be returned without action pursuant to the Commission rules. Your response is required to obtain the requested authority.

Public reporting burden for this collection of information is estimated to average eight hours per response including the time for reviewing instruction, searching existing data needed, and completing and reviewing the collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Federal Communications Commission, Office of Managing Director, Washington, D.C. 20554, and to the Office of Management and Budget, Office of Information and Regulatory Affairs, Washington, D.C. 20503.

This Notice is required by the Privacy Act of 1974, P.L. 93-579, December 31, 1974, 5 U.S.C. 552a(e)(3) and the Paperwork Reduction Act of 1980, P.L. 96-511, December 11, 1980.
